June 2020

Dear Friend,

Over the past few months, the COVID-19 pandemic has tested healthcare operations under challenging circumstances. As we begin to realize a downward trend in the number of COVID-19 patients in our facilities, Capital Health remains centered in our commitment to the health and well-being of all residents of the communities we serve. Throughout these unprecedented times, there have been many moments where I have personally witnessed our doctors, nurses and allied medical staff provide a level of care that was nothing short of exceptional. Capital Health's expectation of consistent medical excellence, compassionate care and teamwork is a marvel to behold.

Likewise, the profound generosity from the community has been remarkable – Thank You! Capital Health has accepted donations of Personal Protective Equipment (PPE), meals for our employees and a variety of needed items in the collective response to COVID-19. Since the onset of the pandemic, over 17,000 meals have been donated to frontline healthcare personnel in more than 50 departments throughout our healthcare system. These acts of generosity are made possible by the overwhelming support from individuals, organizations and nearly 375 local and regional restaurants, as well as catering venues.

Please know that your philanthropic support continues to help us in this ongoing fight. To this end, Capital Health has established the COVID-19 Emergency Response Fund. This fund will enable financial assistance to Capital Health employees who are experiencing notable financial distress resulting from the current public health emergency, provide Capital Health employees with education, support and resources to help address mental health needs, expand telecommunication capabilities enabling COVID positive patients to communicate with loved ones in the absence of visitor permissions, as well as assist Capital Health in its response to the ever-evolving landscape of our healthcare system.

To make a gift to the COVID-19 Emergency Response Fund please click [here](#). You are also welcome to phone 609.303.4121 and speak with a member of Capital Health's Development Office.

As the region's leading healthcare provider, Capital Health is truly honored to be your trusted healthcare partner.

Wishing you and your family health, safekeeping and peace in this trying time. Finally, please continue to follow the recommendations of the CDC relative to handwashing, social distancing and use of masks. Together we will minimize the negative impact of COVID-19 in our community.

Sincerely,

Al Maghazehe, PhD, FACHE
President and CEO, *Capital Health*
