September 2020

Dear Neighbor,

As the global health crisis began to take root in our region in the spring of 2020, one thing became overwhelmingly clear: the Capital Health community is truly an extraordinary one. From generous donations of funds, medical supplies, and meals, to innovative and thoughtful ways to show support for our healthcare heroes, the community has come together in unprecedented and inspiring ways.

I am deeply humbled and profoundly grateful for the outpouring of goodwill and support from the community and our Capital Health family. Words alone can never be enough to say THANK YOU!

Capital Health relies on each and every philanthropic gift, no matter the size, to deliver the highest level of patient care with the most advanced technologies and treatment options. Gifts of support have a significant impact, yielding advances in medicine and refined delivery of care for the benefit of our patients and families. We are grateful for the generous support we receive from our donors through annual and leadership gifts, planned giving, and corporate partnerships.

To this end, Capital Health has established the COVID-19 Emergency Response Fund. The fund has enabled financial assistance to Capital Health employees assisting with mortgage, rent, utility and childcare arrearage payments. This established fund provides greatly needed assistance to Capital Health employees who are experiencing notable financial distress resulting from the current public health emergency. Moreover, the COVID-19 Emergency Response Fund remains available to Capital Health employees providing education, support and resources to help address mental health needs, as well as supporting the expansion of tele-communication capabilities enabling COVID positive patients to communicate with loved ones.

As the region's leading healthcare provider, Capital Health is truly honored to be your trusted healthcare partner.

Wishing you and your family health, safekeeping and peace in this trying time. Finally, please continue to follow the recommendations of the CDC relative to handwashing, social distancing and use of masks. Together we will minimize the negative impact of COVID-19 in our community.

Sincerely,

Al Maghazehe, PhD, FACHE
President and CEO, Capital Health
